A low cost covert earpiece . Our best selling covert earpiece and it is available with a plug to fit virtually any radio. It is ideal for light duty uses, two or three working days per week. Supplied with a full 12 month warranty when used as recommended.

Acoustic Tube.

Using a soft flexible clear tube to feed the audio directly into your ear from the transducer hidden under your collar all the component parts of your radio system can be hidden under your clothing.

Radio use is invisible except to those standing very

close. Incoming audio is private even to those standing very close. Audio is clear in noisy situations.

Two Wire System

The combined MIC-PTT being clipped to the lapel or threaded down a sleeve so you can talk into your hand thereby covering your mouth.
