

Medium Duty Throat Mic

Key Features

- Twin Microphones
- Heavy Duty Cables
- Weather Resistant Construction
- Service Spare Parts Available
- Large PTT
- 12 month warranty

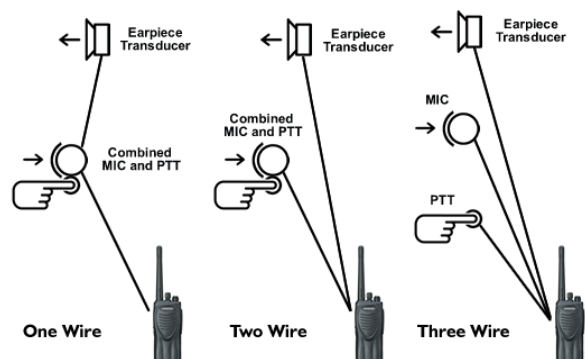

Ideal Applications

- Covert Operations
- Door Security (Noisy and Quiet)
- Outdoor Pursuits
- Helmet Applications

Very robust construction with heavy duty curly cables and large PTT. Ideal for medium duty use, for instance 5 working days a week. Supplied with a full 12 month warranty when used as recommended.

Acoustic Tube.

Using a soft flexible clear tube to feed the audio directly into your ear from the throat Mic hidden under your collar. Radio and incoming audio is undetectable except to those standing very close. Incoming audio is clear in noisy situations. Very large PTT for use under clothing or suitable for operation with gloved hands.

One Wire System

Specification

Cable diameter: 2.55mm Cable Length: Radio to Collar 130cm. Radio to Mic-PTT 105cm.
Service Parts: Buds, Tube, Radio Cable.

Please note: Throat Mics do not offer the same audio quality you would expect from a conventional microphone. The sound is transmitted through your throat and generally sounds slightly muffled compared to other Mics. If you are not sure if this is the product for you please phone for advice.
